

Diagnose 20.7.2021

100 Respiratory disease

- 110 Rhinitis
- 111 Inclusion body rhinitis
- 112 Bordetella bronchiseptica infection
- 113 Atrophic rhinitis
- 120 Other respiratory infection
- 121 Enzootic pneumonia, Mycoplasma hyopneumoniae
- 122 Swine influenza
- 123 Pleuropneumonia, Actinobacillus pleuropneumoniae

200 Disease in digestive system

- 210 Disease in mouth
- 211 Necrobacillosis
- 220 Gastric disease
- 221 Gastric ulcer
- 229 Feeding related disease
- 230 Enteritis, diarrhea
- 231 Bloody diarrhea (Unknown cause)
- 232 Escherichia coli diarrhea
- 233 Clostridium perfringens type C diarrhea
- 234 Clostridium perfringens type A diarrhea
- 235 Swine dysentery, Brachyspira hyodysenteriae
- 236 Brachyspira sp. or B. pilosicoli diarrhea
- 237 Lawsonia intracellularis diarrhea
- 238 Salmonellosis
- 240 Intestinal torsion
- 241 Rectum prolapse
- 250 Acute degeneration of liver, hepatitis dietetica
- 260 Internal parasites
- 261 Medication against internal parasites including coccidiosis

300 Skin disease / skin disorder

- 310 Skin infection
- 311 Exudative epidermitis
- 320 Skin disorder
- 321 Pityriasis rosea
- 322 Epitheliogenesis imperfecta
- 330 Skin trauma
- 331 Shoulder sore
- 340 External parasites
- 341 Sarcoptic mange, scabies
- 343 Eradication of scabies
- 344 Lice

400 General and nervous diseases

- 410 Septicemia
- 411 Erysipelas
- 412 Glasser`s disease, Haemophilus parasuis
- 413 Edema disease, Escherichia coli
- 414 Peritonitis
- 420 General disease caused by virus
- 421 Circovirus disease
- 422 Systemic circovirus disease, PCV2 - SD, (PMWS)
- 450 Neurological disease
- 451 Meningitis
- 452 Congenital neural disease
- 453 Teschen-Talfan disease

- 460 Poisoning
- 461 Salt poisoning / lack of water
- 470 Heat stress

500 Locomotory disease

- 510 Arthritis
- 511 Bursitis
- 512 Other reason for lameness (trauma or infection)
- 520 Trauma in claw(s)
- 521 Claw infection
- 522 Overgrown claws
- 530 Leg weakness, osteochondrosis
- 540 Muscle weakness, NMD
- 541 Stress syndrome, PSS
- 550 Splayleg
- 560 Fracture

600 Reproductive and urinary diseases

- 609 Synchronization of estrus
- 610 Other reproductive failure in sow
- 611 Anestrus
- 612 Infertility, normal estrus cycle
- 613 Infertility, abnormal estrus cycle
- 614 Abortion
- 615 Mummification
- 616 Metritis and/or vaginitis in lactation period
- 617 Metritis and/or vaginitis outside lactation period
- 620 Farrowing related treatment
- 621 Farrowing induction
- 622 Farrowing aid
- 623 Uterine inertia
- 624 Trauma in genitals
- 625 Painful farrowing / aggressive sow
- 626 Vaginal / uterine prolapse
- 630 Disease of mammary gland
- 631 Milk fever, MMA, PDS
- 633 Agalactia
- 634 Mastitis
- 635 Trauma or defect of the udder
- 640 Dysfunction in the reproductive performance of the boar
- 641 Inability to mate or low libido in boar
- 642 Boar infertility
- 650 Defect of reproductive or urinary organs
- 651 Congenital defect of reproductive or urinary organs
- 652 Trauma of reproductive or urinary organs
- 653 Urinary infection
- 690 Pregnancy test

700 Other diagnosis

- 710 Fever without other symptoms
- 711 Hypothermia
- 712 Cachexia
- 713 Anorexia without other symptoms
- 720 Undefined disease of piglet less than 2 weeks old
- 721 Supportive treatment of a piglet
- 722 Navel hemorrhage
- 723 Navel infection
- 730 Heart or coronary disease
- 731 Sudden heart death

732 Anemia
733 Preventing iron deficiency
740 Tail biting
741 Abscess
750 Accident, injury
799 Unknown disease

800 Operations and prevention

810 Surgical operation
811 Umbilical hernia operation
812 Inguinal hernia operation
813 Castration, under 8 days old
814 Castration, at the age of 8 days or older
820 Health care visit
821 Health check of all animals
830 Sampling
831 Autopsy

850 Vaccination

851 Swine influenza vaccination
852 Actinobacillus pleuropneumoniae vaccination
853 Other respiratory disease vaccination
860 Escherichia coli diarrhea vaccination
861 Clostridium perfringens types A and C vaccination
862 Clostridium perfringens type C vaccination
863 Escherichia coli and Clostridium perfringens diarrhea vaccination
864 Other intestinal diseases vaccination
865 Lawsonia Intracellularis vaccination
870 Circovirus vaccination
871 Erysipelas vaccination
872 Glasser`s disease vaccination
880 Parvovirus vaccination
881 Parvovirus and erysipelas vaccination
889 Other disease vaccination
890 Other preventive treatment
891 Preventing iron deficiency anaemia and coccidiosis in piglets
892 Preventing vitamin and mineral deficiency

900 Other codes

910 Reason for culling

911 Old animal
912 Poor test result
913 Rejected in farm test
914 Small litter
915 Poor maternal skills
916 Poor milk producer (sow)
917 Different problems in piglets
918 Planned culling (independent of animal)
919 Too large in size
921 Relative
922 Aggressive
923 Other reason for culling
924 Culled due to hernia / hernia

930 Way of culling

931 Sold as a live animal
932 Sold to slaughter
933 Slaughtered at farm
934 Killed
935 Died

936 Born dead

940 Destruction

941 Buried

942 Rendering plant

943 Carcass
